PSTF ACHIEVERS AWARD 2017

We hereby invite nominations for the 2017 PSTF Achievers Awards.

The National School of Government (NSG) in partnership with the PSTF Advisory Committee will be conferring the fourth PSTF Achievers Awards during the upcoming annual PSTF Conference (hosted by the NSG in Gauteng, October 2017). The purpose of the Achievers Awards is to recognise practitioners and Departmental units or Departments that have worked hard to support capacity building of government officials to contribute towards the achievement of national objectives.

The PSTF Achievers Awards are growing in stature and are set to again be a highlight at the annual conference. The PSTF Advisory Committee and Awards Task Team therefore request all role-players to support the PSTF Achievers Awards. As it is important to acknowledge individuals and teams that have excelled and showcase excellence within their everyday activities, practitioners, departmental units and departments are invited to nominate deserving candidates.

The Awards will be conferred to deserving candidates in the following categories:

- **Award Category 1:** Minister's Award for Excellent Service to Public Service Training
- **Award Category 2:** NSG Principal's Award for Excellence in Training Development for NSG Programmes
- **Award Category 3:** Coal-face Service Delivery Training Programme aimed at improving Service Delivery
- **Award Category 4:** Training Excellence Service Medallion for Life Time Achievement in Training, Learning and Development
- **Award Category 5:** Excellence in Youth Development Training Award
- **Award Category 6:** Excellence in Design and Development of Training Programmes
- **Award Category 7:** Excellence in Inclusivity Training

Closing date for nominations: 31 August 2017

In order to ensure legitimacy in conferring Awards, there will be a thorough audited adjudication process with national and provinces representatives.

Your support for the PSTF Achievers Awards processes is highly appreciated. For more detail and nomination forms see: [website \(to include address\)](#)
